TOGETHER

Construction Federation of India

A brief profile and Spectrum of Activities

The Construction Federation of India (CFI) is a leading representative body of engineering construction firms engaged in building vital infrastructure, including dams, power stations, highways, bridges, tunnels, seaports, airports, metros, and other projects of national significance. The Federation's primary objective is to drive comprehensive improvements in the construction sector, addressing both operational and policy-related challenges. CFI advocates for greater recognition and support from policymakers, highlighting the industry's significant contribution to the national economy. To achieve these goals, the Federation undertakes a range of activities focused on policy advocacy, industry development, and promoting best practices.

- Interacting with authorities on relevant policy issues and areas of concerns.
- Generating internal discussions and consensus amongst the members on important matters.
- Submitting Memoranda/ Representations to the Government.
- Database for construction eco system - Conducting research on various facets of the construction industry to create a database. Also maintaining lists of key equipment manufacturers / vendors / suppliers / consultants and other firms / professionals associated with the construction industry.
- Organizing Seminars / Conferences / Workshops covering important themes relating to policies / taxation / finance / engineering / PPP and other construction and infrastructure matters.
- Making efforts for implementation of fair contractual agreements across various infrastructure sectors and prevent disputes and delays.
- Advocate harmonious and rational taxation system.
- Provide platform for global networking and exploring business opportunities through foreign delegation visits. Keeping the members informed on the latest policy measures, government notifications and circulars.
- Updating members with latest news relevant to the construction industry on a regular basis.
- The members are also regularly informed of the PIB Press Releases on infrastructure, responses to questions on infrastructure sector raised in the Parliament, extracts relating to construction and infrastructure sector in various policy pronouncements of Ministry of Finance, Reserve Bank of India, etc.

CFI enjoys patronage of majority of the leading civil construction companies in India

CFI – A Representative Body "Of the Sector, For the Sector and By the Sector"
